Approved. Looks like a great opportunity. Please ask them to do a brown bag/debrief for folks that would benefit (potentially also those in Berts shop?) when they return.

Sandy

Hi Sandy, The attached flier describes an EPA sponsored conference taking place in Albuquerque, NM, August 12 -14, which is focused on cleaning up mining impacted waters. The Remedial Program is seeking your approval to send two RPMs, Paula Schmitt diel and Joy Jenkins, to this conference, since it is highly relevant to their work at the Upper Animas, Nelson Tunnel and Gilt Edge Mine sites. There is no conference registration fee, and the travel plan likely would include GOV use, but we will do the math on that before deciding the preferred alternative.

Thanks,

Steve

Steve – As you know from my previous response to Louise, I have decided against going to NARPM even tho' it is usually a great conference and place to network. I have a lot on my plate. But I really hope that a few of us RPMs can go to this EPA conference which seems to me to be very relevant to my work on the UA.

Paula Schmitt diel

Hi all. Info via the Engineering Forum. Call for abstracts for an upcoming mining conference that may be of interest.

Fran

PS. Cinna, this can be shared with State Managers.

**Subject:** National Conference on Mining-Influenced Waters: Call for Abstracts

Hi All,

The final version of the Call for Abstracts for the National Conference on Mining-Influenced Waters is attached. This may now be distributed.

We kicked off publicity for the conference by announcing it in the March 1<sup>st</sup> issue of TechDirect. The deadline for abstracts is March 28, so please be sure to distribute the flyer now to any colleagues who might be interested in submitting an abstract.

Thanks,

Alina
